

White Lines for Edworth Road – Sign the petition!

The Edworth Road is a busy link road running from the A1, serving the ever expanding villages of Langford and beyond. This unlit national speed limit road had centre lines along its entire length until resurfacing took place in 2016.

We believe Central Bedfordshire Council has misinterpreted Department for Transport guidance on road markings and they are refusing to install markings on the road.

To sign the petition demanding that Central Bedfordshire Council changes its mind, scan the QR code below to get the link to the petition.
